### ABOUT ME:

I am a cosmetic and general dentist in the Treasure Valley. After receiving my degree in Neurology, I later graduated from the prestigious University of Louisville school of Dental Medicine. I am a Sustaining member of the American Academy of Cosmetic Dentistry, and the Founder and President of the Idaho Academy of Cosmetic Dentistry. I am also honored to be a member of the American Academy of General Dentistry, American Dental Association, American Academy of Implant Dentistry, and Organization for Dental Oral Conscious Sedation.

When I'm not at the office you can find me with my wife and four kids, usually up in the mountains snow skiing, camping, or boating.

### SPECIALTY:

Our specialty is changing people's lives through beautiful dentistry. Our promise to you is that you will receive gorgeous, healthy, and long-lasting restorations. Patients should use our services if they are looking for a great dental experience.

### ABOUT MY PRACTICE:

Our practice is dedicated to high quality and beautiful dentistry. We focus on cosmetic, reconstructive, sedation, and implant dentistry, as well as all other aspects of general and family dentistry. We have a world class state of the art facility where we use advanced technology to make our dentistry less invasive, less expensive, more accurate and more natural. We treat our patients like family. Each patient receives a custom treatment plan to meet their wants and needs.

We offer a relaxing environment with sedation, scented candles, paraffin wax treatment, scented towels, messaging dental chairs, and large flat screen TV's in the ceiling. Our friendly staff, along with the afore mentioned amenities is designed to make your dental visit pleasant and unforgettable. Our patients are our best testament of our dentistry which is why we provide the best dentistry has to offer.

#### ADVICE:

"Your smile and your oral health are directly connected to your overall health and confidence. A healthy mouth can lead to a healthier body and a smile makeover can increase your confidence and change your entire outlook on your life. I know this because we see it every day."

### ABOUT ME:

My name is John Lackaff and I am the Operations Manager at Accure Dental and Dentures in Meridian, ID. My duties include overseeing the day-to-day operations of our clinic, and consulting patients on their dental treatment.

### SPECIALTY:

Accure Dental and dentures is a full-service dental clinic with an emphasis on removable prosthetics. Our dentures are made on-site by licensed dentists, and all of our dentures have warranties.

### ABOUT OUR PRACTICE:

At Accure, we focus on the overall dental health of our patients. Since we are a full-service clinic, we are able to provide the patient with all the dental services they need at one location. Every new patient 18 years and over receives a free comprehensive exam including all of the necessary radiographs (x-rays). Our doctors then comprise a thorough treatment plan and provide the patient direction on the path to not only better oral health, but better overall health. The mouth is the "gateway" to the rest of the body. If we do not have strong oral health, we are not healthy! Periodontal disease, for example, can lead to other serious health conditions including cardiovascular disease, heart disease, and stroke.

High-quality affordable dental care is tough to find these days. Accure Dental and Dentures offers affordable payment plans (on approved credit), including interest-free options available up to 12 months. Most dental insurances are accepted and generous senior, veteran, and Medicare/Medicaid discounts are also available to help reduce the financial burdens associated with quality healthcare. At Accure, our friendly and supportive team will always strive to give every one of our patients the superior dental care that they need in the supportive and caring environment that they deserve.

#### ADVICE:

"To echo Dr. Everett Koop, former U.S. Surgeon General: 'You're not healthy without good oral health.'"
